Admitted &
Non-admitted

Wholesale

Everyone has a story — and we're here to listen. We welcome complex risks from responsibly engaged insureds and take a thoughtful, hands-on approach to every submission to craft solutions that fit.

PROSPECTIVE INSURED

We are excited to offer a non-admitted transportation solution to insureds who:

Are engaged insurance partners

Want to proactively make safety improvements and are open to implementing suggestions from our internal loss control experts

Value the strategic and holistic insurance carrier approach

Are not simply looking for lower premium

If you have risks that meet the qualifications above, the following guidelines will assist you in qualifying, submitting and binding E&S business with PUI Transportation. They are subject to change without notice.

PRODUCERS

PUI E&S Transportation will accept new submissions for consideration from pre-approved surplus lines licensed producers

HIGH-LEVEL APPETITE GUIDE

E&S Transportation, (A+ rated, non-admitted):

Auto Liability (AL) and Physical Damage

\$50k+ minimum policy premium, except for standalone HNOA policies which have a \$25k+ minimum premium

2+ power unit fleet risks that require an E&S carrier solution

Risks declined by PUI's Transportation program and other admitted carriers

Send submissions to:

Submissions@ProgramUnderwriters.com

Questions on a risk, call:

800-432-8185

Targeting:

Lighter E&S or harder-to-place risks where the standard market has limited solutions (due to territory, fleet mix, risk class, growth, etc.)

Accounts with prior losses but a willingness to engage in improvement

Complex or unique operations requiring tailored coverage

Insureds that demonstrate a foundational safety culture and a proactive attitude toward risk

Outside of Appetite:

Risks with egregious neglect of loss control or safety practices

Accounts that disregard regulatory compliance or operate outside industry standards

Insureds unwilling to take steps toward meaningful improvement

Risks where poor culture or behavior — not just circumstances — drive the losses

Operations with substantial claim severity and frequency resulting in the inability to profitably write the risk

TERRITORIES

Policies cannot be domiciled in and vehicles cannot be registered in the following states: CT, KS, KY, MA, MT, NC, NJ, NM, NV, NY or WV. For risks domiciled and registered in eligible states – if they enter NY, use in the 5 boroughs of NY can be incidental only.

All risks written on non-admitted paper except in IL, FL and MI

Territories that are a fit:

- Risks domiciled in/primarily operated in higher-risk territories:
 - South FL (south of Lake Okeechobee)
 - South TX (south of Houston)
 - Higher risk CA counties: Los Angeles, San Francisco, Marin and Alameda
 - Cook County IL

SUBMISSION CLEARANCE REQUIREMENTS

- Application: Completed application including account narrative, strategy, market position, coverages and desired symbols. An PUI E&S application is not required to clear, however the PUI application will be required during the underwriting process.
- Loss Runs: 4 years of currently valued hard copy loss runs valued within the past 90 days or less of the effective date (5th year may be required after file review)
- Submission Date: 90 days or less from the effective date
- Vehicle schedule: Excel is preferred, including licensing state, garaging city and state, year, make, model and VIN, specific use, seating capacity, modifications or permanently attached equipment and stated amount
- Send new submissions to
Submissions@ProgramUnderwriters.com

BENEFITS OF PUI TRANSPORTATION PARTNERSHIP

PUI Transportation offers comprehensive loss control services that include:

- Access to a dedicated loss control expert
- Access to driver safety training videos through PUI Safety Solutions' proprietary Learning Management System (LMS)
- One weekday of onsite driver training from an PUI Loss Control expert
- Discounts on hardware and subscription costs from Samsara, Lytx, Motive and Netradyne
- Access to PUI Safety Solutions DOT compliance assistance
- Quarterly claim reviews available on larger risks

EXAMPLES OF ELIGIBLE RISKS

- Ambulance
- Appliance delivery
- Claim activity but willingness to engage with carrier to mitigate and improve
- Complex or unique operations requiring tailored coverage
- Contractor fleets (pest control, street sweeping, construction, trade contractors, debris removal, etc.)
- Contractors with vehicles that have permanently attached equipment (cherry pickers, cranes, etc.)
- Couriers (Amazon and final mile not a fit)
- Drive Away Contractor
- Dump Trucks
- Federal filings and/or MCS-90 endorsement
- Flat bed operations (as long as not for hire)
- Healthcare related fleet
- Long-distance radius
- Loss Control/Safety/Compliance: risks that need assistance building on their foundational safety culture and are willing to engage
- Manufacturing
- Mixed fleets (PPT, light-medium, heavy, extra heavy)
- Multi-state risks (vehicles must be licensed and registered in eligible states)
- Newer ventures (owner has experience in the industry)
- Passenger exposure: NEMT and Paratransit risks (15 or less total passengers)
- Quality risks in higher risk territories: South FL, South TX, Los Angeles County, San Francisco County
- Risks declined by PUI's preferred commercial specialty auto (CSA) product
- Risks with a gap in coverage (signed NKLL required)
- Security Operation
- Standalone hired and non-owned auto (HNOA) on an if/any basis: \$25K+ MP
- Standard market declined: risk factors including territory, fleet mix, risk class, growth, etc. make risk ineligible for preferred terms
- Symbols 10 and 11
- Towing
- Wholesale and Distributors

EXAMPLES OF NON-ELIGIBLE RISKS

- Accounts with large seasonal exposures
- Airport Shuttle
- Amazon couriers or final mile couriers
- Ambulance: small feet (less than 5 units)
- Businesses that operate more than incidentally in the 5 boroughs of NY (Manhattan, Brooklyn, Queens, The Bronx, Staten Island)
- Carnival or circus operations
- Charter bus operations
- Claim frequency and severity - operations with substantial claim activity: cannot profitably write the risk
- Container haulers/intermodal
- Contingent coverage (AL and physical damage)
- Explosives hauler
- Food Delivery (wholesale acceptable)
- For-hire trucking
- Hazardous material hauler
- Hot Shot trucking
- Intermingled businesses unless we're offering terms on all exposures
- Large subcontractor exposure when federal filings are not required: will not offer hired auto coverage
- Livestock haulers
- Logging operations
- Loss Control/Safety/Compliance: risks with a clear history of egregious behavior surrounding loss control, safety and compliance
- Mid-term submission looking for lower premium
- Non-domiciled CDL drivers
- Oil & Gas related risks
- Passenger carrying risks that require a \$5 million limit
- Passenger carrying risks with 15+ passenger capacity
- Passenger exposure: Behavioral Health
- Passenger exposure: Child Transport or Daycare Operation
- Passenger Transport in hired or non-owned autos
- Passenger transport in: MI
- Ports/Marina exposure: operations occurring on or near
- Railroad operations
- Rental operations
- Ride Share
- Risks requiring coverage from a market of last resort due to substantial issues surrounding loss control/safety and/or claims
- Staffing agencies
- Taxi
- Tribal territory exposure
- Waste/Recycling - residential and commercial
- Passenger exposure: Drug Rehabilitation Facility

EXAMPLES OF BOUND RISKS:

Risk Class	# of units	Vehicle Type(s)	Address	Opportunity
Towing	2	Light-med units	Jurupa Valley, CA	Newer Venture
Security Operation	9	Light-med units	Los Angeles County	Cancelled for non-pay based on system error; carrier wouldn't reinstate
Contractor – Debris Removal	18	Mixed fleet: light-med; extra heavy	South TX	Issues with prior carrier — undisclosed items: fees and coverage forms
Pest Control	70	Light-med units	South FL	Tough venue with claim severity
Contractor – Street Sweeping	75	Mixed fleet: heavy, extra heavy	Los Angeles, CA	Tough venue and risk class
Towing	7	Light-med units	South FL	Tough venue and risk class
Contractor – Controlled Burn	43	Light-med units	San Francisco, CA	Multi-state, tough venue and risk class, custom HNOA language
Passenger Transport: 15 or less passenger capacity; not for hire	5	Light-med units	Lemoore, CA	Non-renewed due to prior carrier appetite change, passenger transport, airport exposure

Note: All risks have a foundational safety culture and willingness to engage with our Loss Control group including timely implementing all post-bind loss control requirements
