

## WORKERS' COMPENSATION

We provide a comprehensive workers' compensation program uniquely crafted for the trucking industry. Our program is overseen by our dedicated claims management team, who have specialized expertise in commercial trucking and state-specific workers' compensation laws. It is supported by Crum & Forster's nationwide network of adjusters, who work in tandem with our team to provide a holistic approach to managing your risks.

### THE DMC ADVANTAGE

- Regular consultation services provided by a dedicated DMC Risk Engineer to enhance workplace safety and compliance
- A dedicated Special Investigation Unit (SIU) to investigate suspicious or non-meritorious claims
- A full medical management and medical bill review program
- Dedicated subrogation team that relentlessly pursues recovery
- Detailed claims reviews at no additional charge
- In-house physicians to assist with assessing complex medical cases
- Nurse triage program available to guide claimants through appropriate treatment options
- Medicare compliance services with Medicare eligibility verifications offered at no charge
- Unique **Return to Work** program, offering temporary assignments at charitable organizations
- A comprehensive network of approved defense firms with transportation specialty practices
- Proactive case resolution, but fully prepared to defend cases when needed

Our workers' compensation coverage offers **considerable cost savings**, including many services at no charge.
