Underwriting Appetite

RISE Underwriters targets commercial trucking accounts that may not qualify for preferred pricing and have above average cultural and technological characteristics “Diamonds in the rough”. Our unique approach exists to improve the performance of these accounts. We use “A” rated paper and write primary commercial auto liability and provide all adjacent coverages such as APD, GL, MTC and NTL/Bobtail.

Key Highlights

- Fleet size: 25+ power units
- Ineligible states: KY, MA, NH, NV, NY, RI, VT, WV
- Non-admitted paper
- Primary auto liability limits: \$1,000,000 CSL (\$1,500,000 for NJ)
- Guaranteed cost and deductibles
- Coverage forms: ISO Motor Carrier Coverage Form, manuscript coverages
- Composite rated structure: Typically symbol 61, symbols 67 and 72 also available
- Mileage and unit rating bases
- Unit and mileage reporters available
- Radius: No restrictions
- Financing available
- Driver minimum standards are applicable
- Excluded classes/commodities: household goods, hazmat, sand & gravel, liquid bulk, explosives, livestock, mobile homes/offices (flatbed or wheels), Mix-In-Transit, Last/Final Mile business.
- Misc. Exclusions: Active brokerage authority for primary insured, poor driver controls, poor safety culture, unsatisfactory or conditional DOT rating

Submission Requirements

30-day minimum
submission lead
time

- RISE Underwriters trucking application or equivalent specialty trucking application

- Recently valued loss runs for the past five years

- Most recent four quarters of IFTA reports or ELD mileage reports

Most recent
financial
statements,
including income
statement and
balance sheet

- MS Excel vehicle list

- MS Excel driver list

- MVRs (for fleets less than 50 units)

- Driver hiring/training manual and any other safety material

Workflows/Timing

- Please use submission portal. Specialty trucking applications, please!
- 30 Day lead time (exceptions if a true opportunity/complete submission)
- Some accounts will need to have LC call prior to indicating but typically all accounts (time permitting will require a pre-quote LC call directly with insured.
- TruckerCloud 90-Day lookback now required
- Non-Binding Indication>Formal Quote (with bind docs)>Bind
- For binding, all bind docs must be fully completed prior to releasing policy # or issuing filings – No exceptions
- Monthly driver reports required (RISE will run MVRs and build in charge on front end).
- Monthly mileage reports required
- Monthly vehicle Reports required
- Policy typically issued within 30 days

Program Types

- Guaranteed cost
- Large deductibles with collateral (cash or LOC) Minimum deductible: 10,000. Maximum deductible: 750,000
- Collateral agreement
- LOC: Approved bank with evergreen clause
- Premium financing is preferred
- Reporters available – mileage (quarterly IFTA true-up and unit in arrears. Prefer to avoid monthly exchange of premium. True reporters require 20% non-working escrow. All monthly reporters subject to 90% min (normally the same as annual policy min)

Available Coverages/Placemen t Options

- Most AL is underwritten and bound via MGA/Pen
- APD/MTC/GL package required with AL
- Reduced Commission For Monoline AL
- Monoline APD/MTC available
- Additional markets available via Concierge

Rates/Pricing Philosophy

- We don't use standard ISO rates and evaluate/price most accounts per their unique characteristics.
- Smaller fleets will take more rate (critical mass).
- We can compete on better in class accounts
- We prefer larger accounts that can take a large deductible
- Regardless of fleet size: better culture = better rate.
- Other qualitative variables influence rates such as: Running lanes/legal venues, driver tenure.
- Obviously, we build up pricing based on historical losses but do understand the past doesn't always predict the future.
- More aggressive AL rates when APD and/or MTC is written.
- Better technology and controls = better rate. We support the use of online platforms such as INFINIT-I and TruckerCloud and now mandate TruckerCloud for all accounts.
