

DRIVER GUIDELINES

All Drivers Must Be Pre-Approved By QEO.

In order to operate a QEO Insured vehicle, QEO requires **all** potential drivers, including new hires and potential hires prior to test-driving to be pre-approved by Underwriting. QEO aims to review drivers within 24 hours from the time the request was received. Please inform your Agent of all potential new drivers.

Basic Driver Guidelines:

- ✓ Current MVR is required on all drivers including new and replacement drivers.
- ✓ Driver must have proper CDL licensing as required by the DMV.
- ✓ Driver requirement for all units: MAXIMUM AGE 72 unless pre-approved by Underwriter.
- ✓ Driver requirement for heavy and extra heavy units: MINIMUM AGE 25 with 2 years experience operating similar type vehicle.
- ✓ Driver requirement for light, medium and private passenger units: MINIMUM AGE 21.
- ✓ Drivers must have a minimum of 2 years of experience driving equipment of a similar type, configuration and GVW.
- ✓ Drivers must be U.S licensed at least 2 years (validated by MVR) and be at least 21 years of age. CDL drivers must be at least 2 years U.S. CDL licensed and be at least 25 years of age.

The guidelines listed above are basic QEO requirements. However, QEO extensively evaluates additional criteria and proprietary reports to determine driver eligibility.

PROBATED DRIVERS

Probated drivers are drivers that are closely monitored throughout the QEO active policy period. Any additional claim, moving violation or infraction may cause the driver to be excluded.

EXCLUDED DRIVERS

Excluded drivers are prohibited from operating QEO insured vehicles, but these individuals may be assigned to non-driving duties. Once a driver is excluded, the driver will remain excluded on the policy's driver's list for the policy term and all policy renewals, even if their employment is terminated.
