NAVSyncSM: A Smarter, More Flexible Way to Insure Your Fleet

Your business isn't the same every month, so why should your insurance cost be? With NAVSync, your premium adjusts based on the actual miles your vehicles drive, giving you more control and transparency over your monthly expenses.

How NAVSync Works

NAVSync uses your fleet's telematics system to calculate monthly mileage and determine your premium.

Mileage Driven Premiums

Actual telematics mileage powers each month's billing, no manual reporting or estimated use.

Automatic Processing

Mileage updates, endorsements, and invoices are handled behind the scenes for seamless account management.

Predictable, Transparent Billing

A simple automatic payment will process 5 days after each invoice date, keeping billing predictable and hassle-free.

Who Is Eligible?

NAVSync is available for qualifying small fleet trucking customers who:

- Operate **5–20 vehicles**
- Use **Samsara** or **Motive** telematics
- Sign a **Data Sharing Agreement**

A Better Way to Manage Fleet Insurance

Take control of your insurance costs and pay only for the driving you actually do. NAVSync gives you flexibility, accuracy, and a payment plan that finally keeps up with your business.
